

Bathed in natural light, the Taipan Suite is a quiet urban hideaway soaring over the Hudson River on the 54th floor. The floor-to-ceiling windows of the two bedroom and two and a half baths suite showcase stunning views of Central Park, the Hudson River and the Manhattan skyline. Its clean classic lines, sophisticated urban-chic décor, Asian accent pieces and hints of Art Deco create a serene urban retreat.

Light, airy details combine with warm, earthy tones and gold accents create a peaceful feel to this retreat. Each bedroom takes on its own feel; the master bedroom features hues of gold, deep red and pomegranate; second bedroom has a cooler silver, teal and white color scheme.
